

Preliminary Data – Now Available

By DAVID E. SANGER, MICHAEL R. GORDON and ERIC SCHMITT. 26 minutes ago

The OOI intends to provide Preliminary Data via this web portal pending completion and commissioning of the OOI Cyberinfrastructure. At this time, available data are limited to wire-following profilers on the Pioneer Array, with data from the Endurance Array and Station Papa coming soon. As more infrastructure is deployed and software completed, more preliminary data will become available.

ASL Environmental Sciences Inc. to provide Un-Cabled Bio-acoustic Sonar Instruments

By PETER BAKER

The Consortium for Ocean Leadership (OL) and the Woods Hole

Oceanographic Institution (WHOI) announced ASL Environmental Sciences Inc.

Access historical and near real-time atasets by selecting an array from the map above. The OOI has collected 123,565,842 observations accross 985 parameters to-date.
